INTRODUCTION

AS I have travelled where no other white woman has ever been, and lived among practically unknown tribes both in Borneo and Africa, I have often been asked to write a book; but till now I have wisely refused, as I have no idea how it ought to be done. I have a hazy notion that I ought to know all about prehistoric and glacial periods, whereas they convey nothing to my mind; and the subject of composed and decomposed porphyrite rocks and metamorphic states is unintelligible gibberish to me: so if this ever appears in print, please don't expect too much.
