PREFACE.

The rapid advancement in science has wrought many changes in the principles and practice of medicine, added new remedies to the resources of the physician, exploded many old theories, and dissipated countless fancies and prejudices. Well worn paths have been left, new fields traversed, and discoveries made, which aid not only in the cure, but in the prevention of disease. Important lessons have been taught, and the limits of knowledge extended, by trials of endurance which have developed unsuspected latent powers, both in man and animals. Further progress will yet be made, of which speculation is fruitless.

To place before the reader a faithful exposition of medicine, as it exists at the present time, is the purpose of the author. No finished treatise is attempted, replete with scientific technicalities, calculated to confuse and mystify, but in simple, comprehensive language and expression, on these pages are described the prominent appearances in disease, and the manner of applying remedies, sustained largely by the results of personal observation.

This book is submitted with the ardent hope it may be found a source of instruction, and aid in the care of man's true and faithful friend, the Dog.

ASHMONT.

CONTENTS.

CHAPTER I.

GENERAL MANAGEMENT.

	PAGE
Introduction.—The Care of Puppies after Weaning.—Feeding.—Exercise.— Washing.—Kennel Arrangements.—Grooming.—Vermif.	1

CHAPTER II.

ANTIDOTES AND TREATMENT IN CASES OF POISONING.

General Remarks.—Rules in using Medicine.—Arsenic.—Strychnine and Nux Vomica.—Carbolic Acid.—Phosphorus.—Mercury.—Lead Salts.—Gen- eral Antidote.	15
---	----

CHAPTER III.

THE PRINCIPLES OF MEDICINE.

Pathology.—Definition of Health.—Diagnosis.—Reasoning by way of Exclu- sion.—Prognosis.—Prognostics.—Causation.—Administering Medicine.	19
--	----

CHAPTER IV.

SPECIAL PATHOLOGY AND THERAPEUTICS.

Introduction.—Definition of terms Acute, Subacute, and Chronic.—Self-limited Duration of Certain Diseases.—The Expectant Plan of Treatment.— Rules for Estimating the Doses of Medicine.—Examination of a Dog.— Indications of the Pulse.—Importance of Hygienic Measures of Treat- ment.	23
---	----

DISEASES AFFECTING THE RESPIRATORY ORGANS.

Acute Pleurisy.—Chronic Pleurisy.—Pneumonia.—Bronchitis.—Consumption, —Asthma.—Acute Laryngitis.—Chronic Laryngitis.—Acute Catarrh.— Nasal Polypus.—Ozena.—Influenza.	25
---	----

CHAPTER V.

AFFECTIONS OF THE MOUTH AND TONGUE.

Eruption of the Teeth.—Treatment of the Teeth.—Softening of the Gums.— Cancrum Oris.—Salivation.—Blain.—Inflammation of the Tongue.— Pharyngitis.	49
---	----

CHAPTER VI.

DISEASES AFFECTING THE DIGESTIVE SYSTEM.

	PAGE
Indigestion.—Acute Gastritis.—Chronic Gastritis.—Vomiting.—Colic.—Diarrhoea.—Dysentery.—Constipation.—Enteritis.—Intestinal Obstruction.—Peritonitis.—Piles.—Fistula in Ano.—Prolapsus Ani.—Fissure of the Anus.	55

CHAPTER VII.

DISEASES AFFECTING THE SOLID ORGANS OF THE ABDOMEN.

Acute Hepatitis.—Chronic Hepatitis.—Fatty Liver.—Jaundice.—Torpor of the Liver.—Passage of Gall Stones.—Cancer of the Liver.—Affections of the Spleen.—Diseases of the Pancreas.—Sugar in the Liver.—Digestion of Starch.	83
---	----

CHAPTER VIII.

DISEASES OF THE URINARY ORGANS.

Nephritis.—Acute Cystitis.—Chronic Cystitis.—Cystic Calculi.—Renal Calculi.—Retention of Urine.—Hæmaturia.	97
--	----

CHAPTER IX.

DISEASES OF THE GENERATIVE ORGANS.

Balanitis.—Paraphimosis.—Inflammation of the Scrotum.—Morbid Growths.—Prolapse of the Vagina.—Polypus of the Vagina.—Acute Metritis.—Affections of the Vulva.	105
---	-----

CHAPTER X.

DISEASES OF THE EYE.

Ophthalmia.—Iritis.—Cataract.—Amaurosis.—Protrusion of the Eyeball.—Lachrymal Apparatus.—Affections of the Nasus.—Affections of the Eyelids.	111
--	-----

CHAPTER XI.

DISEASES OF THE EAR.

Canker.—Otitis, Media or Interna.—Polypus.—Deafness.—Affections of the Flap of the Ear.	119
---	-----

CHAPTER XII.

DISEASES OF THE SKIN.

Eczema.—Sarcocptic Mange.—Follicular Mange.—Prurigo.—Pruritus.—Favus.—Ringworm.—Erythema.—Erysipelas.	127
---	-----

CONTENTS.

15.

CHAPTER XIII.

INTESTINAL PARASITES.

	PAGE
General Remarks.—Giant Strongle.—Wrinkled Thread-worm.—Cruel Thread-worm.— <i>Ascaris Marginata</i> .— <i>Trinia</i>	143

CHAPTER XIV.

DISEASES OF THE NERVOUS SYSTEM.

Hydrophobia.—Convulsions.—Vertigo.—Apoplexy.—Concussion of the Brain.—Hydrocephalus.—Compression of the Brain.—Acute Meningitis.—Chronic Meningitis.—Chorea.—Neuralgia.—Paralysis.—Tetanus.	151
---	-----

CHAPTER XV.

GENERAL DISEASES.

Distemper.—Diphtheria.—Rheumatism.—Lumbago.—Eruptive Fevers.—Dropsy.—Anæmia.—Plethora.—Obesity.—Rickets.—Scrofula.—Marasmus.	151
--	-----

CHAPTER XVI.

SURGICAL AFFECTIONS.

Wounds.—Umbilical Hernia.—Sprains.—Burns and Scalds.—Fractures and Dislocations.	199
--	-----

CHAPTER XVII.

SEXUAL GENERATION.

Ovulation.—Ovaries.—Size and Appearance of the Eggs.—Their Ripening and Discharge.—Fecundation of the Germ.—Conditions of their Impregnation.—Estruation.—Duration—When to Mate.—Enforced Concurrence.	205
--	-----
