All the above have been printed since the British Pharmacopœia.

SKIN	1858	} are merely reprinted.
WESTMINSTER	1840	

PREFACE.

THE AUTHOR, whilst engaged on the preparation of the British Pharmacopœia in 1863, collected the several Hospital Pharmacopœias of London, and made an alphabetical classification of all the preparations in them for the use of his Committee; these were afterwards published, and have been out of print a long time.

Since the publication of the British Pharmacopœia, all the London Hospitals have published new Pharmacopœias, except two (Westminster and Skin). It has been thought a fitting opportunity to publish a Second Edition of 'The Pharmacopœias of the London Hospitals,' which now number seventeen (instead of thirteen on the former occasion); and as these have been revised with great care by the Physicians and Surgeons of each Hospital, all the

formulæ have an importance, each one applicable for its special purpose. Such a collection cannot fail to be useful to the profession generally, affording examples of prescribing every remedy in the most appropriate form, and, at the same time, presenting to the practitioner the different views taken by the seventeen Hospitals here included, as to the doses and menstruum employed for administration.

277, OXFORD STREET,
March, 1869.
