NOTICE.

THE following Lectures were addressed to the Students attending the University College Hospital in the Spring of this year.

They are published as they were delivered; hence their colloquial style.

My object has been to describe certain forms of Injury of the Nervous System that commonly result from Accidents on Railways, to which I have reason to believe the mind of the Profession has not been directed with that amount of attention which their frequency and the important questions involved in them, appear to demand.

JOHN E. ERICHSEN.

6 CAVENDISH PLACE, LONDON,

June 15, 1866.

CONTENTS.

LECTURE THE FIRST.

INTRODUCTION.

	PAGE
Introductory Remarks—Injuries of Spine—Importance of Subject—Conflict of Professional Opinion not confined to Medical Profession—Necessity of Precision of Statement—The "Railway Spine"—Opinion of Surgeons—Bacon's Opinion—Case of Count de Lordat—Conclusion	17

LECTURE THE SECOND.

EFFECTS OF SEVERE BLOWS ON THE SPINE.

Concussion of the Spine from Direct and Severe Injury—Opinions of Authors, Cooper, Mayo, Bell, Boyer, Abercrombie, Ollivier—Case 1, Recovery—Case 2, Partial Recovery—Case 3, Permanent Paralysis—Case 4, Death after Concussion of the Spine from Direct Injury to the Back—Effects of Severe Blows on the Spine—Fatal Result of Concussion of the Spine—Hemorrhage within Spinal Canal—Laceration of Membranes—Inflammation of Cord and Membranes—Cases—Complications of Injury of Cord—Rupture of Ligaments of Spine—Inflammatory Softening	26
--	----

LECTURE THE THIRD.

ON CONCUSSION OF THE SPINE FROM SLIGHT INJURY.

Concussion of Spine from Slight Injuries—Railway Injuries Peculiar but not Special—Effects of Slight Blows on Spine, Case 5—Concussion from Railway Injury, Case 6—Concussion from Railway Injury, Case 7—Concussion from Carriage Accident, Case 8—Concussion from Falls—Long durations of Symptoms	43
--	----
