## THE CHICAGO REAL ESTATE BOARD

earnestly commends to the careful consideration of public officials, civic organizations, and the thoughtful citizenship of the City of Chicago the within report of the Board of Sanitary Experts, made to its Harbor and River Improvement Committee.

GEORGE H. TAYLOR,  
*PRESIDENT.*

Chicago, June 15, 1915.

## TABLE OF CONTENTS

	Page
Report of the Harbor and River Improvement Committee.....	9
Letter of Transmittal.....	11

### THE REPORT

#### PART I.

##### Introduction and Conclusion—

Authority for the Investigation.....	13
Report of the Drainage Committee of the Chicago Real Estate Board, leading to the appointment of the Sanitary Experts.....	13
Questions Submitted to the Experts and Their Answers....	16
Plan of the Investigation.....	20

#### PART II.

##### The Chicago Region and Its Waterways—

Situation of Chicago and the Sanitary District.....	23
Sanitary Condition of the Great Lakes.....	24
Civic Character and Plan.....	25
Government.....	28
Population.....	30
The Crude and Corrected Death Rates.....	30
The Water Supply and the Death Rates.....	32
Typhoid Fever and the Drainage Channel.....	34
The Future City.....	36
The Chicago River.....	37
The Water Route to the Mississippi.....	41
The Sanitary District of Chicago.....	42
Total Cost of the Water and Sewage Works.....	45

#### PART III.

##### Water Supply—

The First Private Supplies.....	49
The First Public Supply.....	51
Attempts to Secure Unpolluted Lake Water.....	51
The Two-Fold Requirements of Purity.....	53
The Existing Dangers of Pollution.....	54
Pollution from the Chicago River.....	55
Pollution from Boats and Dredging.....	55
Pollution by Other Municipalities.....	56
The Lake Michigan Water Commission's Findings.....	57

	Page
The Lake Water at Chicago.....	60
Necessity for Purifying the Water.....	63
Quantity of Water Available and Required.....	65

#### PART IV.

##### Sewage Disposal—

The First Attempts at Sewerage.....	68
Origin of the Plans for the Present Sewerage System.....	69
Natural Difficulties Overcome .....	69
The Four Methods of Disposal Originally Considered.....	71
First Use of the Illinois and Michigan Canal for Disposing of the Sewage .....	73
Enlargement of the Illinois and Michigan Canal so as to Take More Sewage .....	74
Construction of Pumps to Force More Sewage Through the Illinois and Michigan Canal.....	75
Inception of the Project for a Sanitary and Ship Canal.....	76
Demand for the Drainage Canal in 1885.....	77
Appointment of the Water Supply and Drainage Commis- sion of 1886-7.....	78
Conditions of Water Supply and Sewage Disposal in Chicago in 1887 .....	79
The Three Methods of Sewage Disposal Considered by the Water Supply and Drainage Commission.....	81
The Commission's Objections to Disposal Into the Lake and on Land .....	82
The Drainage Canal Recommended.....	84
Amount of Dilution Recommended.....	85
Cost of the Drainage Canal.....	86
Creation of the Sanitary District.....	87
Construction of the Sanitary and Ship Canal.....	88
The Diversion of Sewage from the Lake.....	89
Review of the Development of Chicago's Scheme of Sew- age Disposal .....	90

#### PART V.

##### What Becomes of the Sewage—

Present Condition of the Chicago River and Sanitary and Ship Canal .....	92
Condition of the Desplaines and Illinois Rivers.....	95
Investigations of the State Board of Health.....	98
Results of Prof. Long's Investigations of the Illinois River...100	
Investigations by the State Water Survey.....	102
Investigations of the State Laboratory of Natural History...104	
Analyses by the Sanitary District of Chicago.....	109
Opinions of the Early Promoters of Chicago's Sewage Dis- posal Scheme .....	110
Original Estimates of Quantity of Dilution Water Required.112	

	Page
Insanitary Conditions Attending the Self-Purification of the Rivers .....	113
Role of the Chicago Drainage Canal in Disposing of the Sewage by Dilution .....	114
Self-Purification as Shown in the St. Louis Suit.....	117
Data on the Disappearance of the Disease Germs.....	120
Testimony as to the Effect of Various Ratios of Dilution...	121
The Analytical Evidence in the St. Louis Suit.....	122
The Illinois Before and After the Opening of the Drainage Channel .....	123
Theories as to Self-Purification.....	123
Recognition of the Importance of Oxidation.....	124

#### PART VI.

##### **The Calumet Problem and the Lake Levels Controversy—**

Relation Between the Calumet Problem and the Lake Levels Controversy .....	126
Drainage Area and Population of the Calumet District.....	128
Present Conditions of Sewage Disposal in the Calumet.....	129
The Calumet-Sag Channel.....	129
The International Waterways Report.....	132
Mr. Hering's Report in Favor of the Calumet-Sag Channel..	135
Ineffectiveness of the Calumet-Sag Solution.....	137

#### PART VII.

##### **Available Processes for Treating the Sewage—**

Removal of the Suspended Matter.....	142
Screens .....	144
Grit Chambers .....	145
Sedimentation Tanks .....	146
Chemical Precipitation .....	147
Sludge Digestion Tanks .....	148
Sedimentation and Digestion.....	149
Final Disposal of Sludge.....	151
Utilization of Sludge.....	153
Sewage Farms .....	155
Sanitary Aspects of Irrigation.....	157
Intermittent Sand Filtration.....	158
Contact Beds .....	158
Percolating Filters .....	159
Aeration .....	160
Miscellaneous Processes .....	161
Summary .....	161

#### PART VIII.

##### **Policies and Methods—**

Protecting the Drinking Water by Diverting the Sewage from the Lake .....	163
