PREFACE

This monograph had its origin in an investigation carried on by the author while a member of the Economic Seminary of the Johns Hopkins University. The principal sources of information have been the trade-union publications contained in the Johns Hopkins library. Various government reports were frequently consulted, and valuable information was obtained from the monographs of former members of the Economic Seminary upon trade-union activities. Documentary study was also supplemented by numerous personal interviews with trade-union officials.

The author wishes to express his appreciation of the helpful criticism and advice received from Professor J. H. Hollander and Professor G. E. Barnett.
