PREFACE

THESE *Epilegomena* are the sequel to my two books *Prolegomena* and *Themis*. I have tried here to summarize as briefly as possible the results of many years' work on the origins of Greek Religion, and to indicate the bearing of these results on religious questions of to-day.

For the new material offered I am largely indebted to the psychological work of Jung and Freud and to the less well known writings of the greatest of Russian philosophers Vladímir Solovióv.
