I. SAARBRÜCK TO PARIS, 1870 : A
Strategical Sketch.

By Lieut.-Col. SISSON C. PRATT, late R.A.

"Colonel Pratt is first in the field with a volume on the war which has been selected as the *Special Campaign* to be read up by officers preparing for the Competitive Examinations for Commissions in the Army to be held in September, 1905, and March, 1906. It is fortunate for those who have to prepare to face the examiner that Colonel Pratt has now turned his attention to the compilation of volumes on Military History. It is hoped that the Series will not only be useful for examination purposes, but may form the nucleus of an interesting library for the military service."—UNITED SERVICE GAZETTE.

"So long a time has elapsed since a military history series has been offered to British soldiers, that Messrs. Sonnenschein may claim the credit of bringing to fruition a virtually new idea. With the limitations common to all or almost all British military writers, the book before us is of great merit. We should select for particular notice the vigorous and even dramatic account of the Sedan Campaign. The book is well illustrated by a good general map and numerous sketch maps."—BROAD ARROW.

"An excellent sketch of what remains the most instructive of modern wars, accompanied by admirable maps upon which the student can follow the tactical as well as the strategical operations of the campaign. Altogether this is a very valuable book."—UNITED SERVICE MAGAZINE.

"A volume (the first) in the *Special Campaign Series*, sketching the strategy of the German invasion of France in 1870. Others are to deal with the Russo-Turkish war, and if they maintain the present high quality, the series (or a volume of it certainly) ought to find a place, with the proverbial baton, in every soldier's knapsack. The maps and sketches are clear, full, and excellent."—PALL MALL GAZETTE.

"The series will certainly make a unique place for itself on our shelves, if all the volumes display the brilliant qualities of the initial volume."—BIRMINGHAM POST.

II. THE RUSSO-TURKISH WAR, 1877 : A Strategical Sketch.

By MAJOR F. MAURICE (The Sherwood Foresters).

"No student who can find time to give Major Maurice's work its due attention should neglect a single page of the narrative. The story is told so succinctly that the imagination is brought into play throughout, and yet no single detail necessary for the right direction of the student's imagination is omitted. The sound, sober common-sense he displays throughout in dealing with tactical problems merits the highest commendations in an age in which all sense of comparative historical treatment seems to have vanished and given place to modern theories. The maps provided are exceptionally good and obviously prepared with the greatest possible care."—BROAD ARROW.

"This is the second volume of a very useful *Special Campaign Series*, and will prove of great value to officers of all ranks, especially to those who have leanings towards the study of military history, a very necessary disposition in these days, when the officer has to look to proficiency in his profession as the only reliable means for obtaining advancement. The moment appears propitious for the publication of an account in English, and no one could have carried out this work in a more capable manner than Major Maurice has done. The book is well got up, well bound in a neat cover, and has several maps to assist the student."—UNITED SERVICE GAZETTE.

"This unpretentious little book—a companion to *Saarbrück to Paris, 1870*—deals merely with the strategy and major tactics of the decisive part of the campaign in Europe. There is at the end a large scale map of the theatre of war in Bulgaria, based on the Austrian survey in 1881 of the Balkan States."—ACADEMY.

"Written with well-considered conciseness and usefully equipped with illustrative maps, few books, if any, could be found better fitted for military students and junior officers desirous of a knowledge of the lessons which the campaign has for a soldier."—SCOTSMAN.

"This volume maintains the credit of the series admirably. Major Maurice does not pretend to give a complete history of the war, but in fact, except that the final phase of the campaign after the fall of Plevna is very rapidly summarized, the war is very fully and minutely described indeed, considering the limit set by the style of the volume. The student is indebted to

Major Maurice for the perfection with which the text is related to the first-class pocket maps, which are on more adequate scales."—GLASGOW HERALD.

"There is little English literature dealing with this campaign, and a comprehensive strategical sketch such as Major Maurice gives in the present work was badly needed by the military student. It is a comprehensive and methodical survey of the whole campaign, and he has not failed to underline the points of principal application to English students."—MANCHESTER GUARDIAN.

"Of very great value as a military class book. There is no other way of acquiring the art of war than lay studying the great campaigns of the past, and such a book as this renders the task much simpler and the subject much more intelligible to junior officers."—NOTTINGHAM GUARDIAN.

"As a strategical sketch of a great war here is an excellent example. The main outlines of the campaign are described, together with the crucial episodes, but the chief aim is to advance what has been termed the science of war. A number of maps and diagrams serve to illustrate the text and enhance considerably the value of the book as a means of military instruction."—LEEDS MERCURY.

"Major Maurice makes the Russo-Turkish campaign deeply interesting, and brings the lessons of Plevna home to islanders to whom that struggle means much. The maps and plans are extremely clear and are not overburdened with detail."—WEST SUSSEX GAZETTE.

III. FREDERICKSBURG : A Study in WAR.

By Major G. W. REDWAY.

"The story is very effectively told by Major Redway, a distinguished member of that increasing band of British officers who so satisfactorily disprove the once general impression, that men of high intellectual abilities and abundant professional knowledge, are not too rarely to be found in our army. The student of military history will be well rewarded by following this succinct narrative assimilating the tactical lessons of the great battle. He will see that the final success was the prize of the most capable general. He was an undoubted master of war, and his opponent Burnside decidedly his inferior in military capacity."—*PALL MALL GAZETTE*.

"Major Redway's narrative is full of instruction for every thoughtful and even for every well-read soldier. His criticisms are fair, temperate and made with an appreciation of the real nature of war which we look for in vain in most of our historians of war."—*BROAD ARROW*.

"This is the third volume of the 'Special Campaign' series of books which are now being published by the above named enterprising firm, and in full maintains the standard of excellence established by its predecessors. In a pocket at the end of the book are four excellent maps of the Eastern Theatre of War and of Fredericksburg and its neighbourhood, all particularly clear, and none of them, as is often the case, overladen with detail."—*UNITED SERVICE MAGAZINE*.

"It is no faint praise to say that its merits as a literary study of war rival those of its predecessors."—*ARMY AND NAVY CHRONICLE*.

"Rich in interest for soldiers who wish to understand how a powerful enemy may be beaten by raising the price of success, and wearing out rather than overthrowing his forces. Well based historical studies concisely written, and finished with a good equipment of instructive special maps, the work forms a valuable accession to the scenes in which it appears."—*SCOTSMAN*.

"Major Redway has made a very valuable addition to the Special Campaign Series, and also a more than useful contribution to the history of the American Civil War. For he has evidently given time, pains and indubitable skill to the study of the mass of material available to the student, and has produced a story self-contained, careful, vivid, as well as specially adapted by its

method for the military student. All the important movements and dispositions of the troops on either side are lucidly detailed, and can be followed on the maps, of which there are five as admirable specimens of cartography as one would expect in a much more ambitious military work."—GLASGOW HERALD.

"The present volume presents a striking contrast to the story of a European campaign, *From Saarbrück to Paris*, with which the series commenced, and Major Redway has done his work admirably. His chapter on the 'American soldier—his social status and professional ability' is one of the best studies on the subject that ever came under our notice."—GUARDIAN.

"The very fact that in the American War the South was so over-matched in wealth and resources makes all the more interesting a close study of their tactics and their strategy, influenced as these on both sides were by political as well as military considerations. The 'Campaign Series' ought to be found in every military library."—YORKSHIRE POST.

"The book offers an instructive contrast in methods adopted by an unskilful general on one side and by a great master of war on the other."—MANCHESTER GUARDIAN.

"While dealing mainly with the technical details of the campaign, the author's narrative is so lucid and so skilfully told that it may be followed with enjoyment and ease by the tyro, as well as the expert in military matters."—DUNDEE ADVERTISER.

IV. MAGENTA AND SOLFERINO, 1859.

By COL. H. C. WYLLY, C.B. (late Sherwood Foresters).

"The Special Campaign series form an interesting addition to the literature of war. From the popular and historical side few campaigns have escaped exhaustive treatment, but there is still room for guidance as to the tactical and strategical lessons that are plentifully available. The Special Campaign series will here prove of value. The book is the first serious study of the war in Northern Italy which has appeared in the English language."—SCOTSMAN.

"Col. Wyllly's careful study of this short, and, on the side of the French, skilfully conducted war will be fresh ground to most of his readers. Officers and military students will find Col. Wyllly's book a useful addition to their working library."—MANCHESTER GUARDIAN.

"Col. Wyllly has had the advantage of all the official accounts, plus the criticism of Europe on the handling of the contending armies. And, with his own ripe experience to guide him, he has produced a book of considerable practical value."—YORKSHIRE POST.

"This is the fourth volume of the Special Campaign series—a series intended to supply military men, and more particularly junior officers, with technical and critical descriptions of the famous campaigns of the nineteenth century. That which Col. Wyllly has made the subject of his study possesses several features of special interest."—GLASGOW HERALD.

"We have before spoken of the practical value to military students and junior officers of the Special Campaign series which draw the professional lessons of a series of operations so clearly and simply that the merest tyro can profit by them. None of them have been more interesting and instructive than No 4. Nothing could be better than the unbiassed and straightforward way in which Col. Wyllly details the plain facts of what was done, both in the movement of troops and in handling them in contact with the enemy."—NOTTS GUARDIAN.

"This makes the fourth volume in the Special Campaign series that has already done so much to further the study of military history and to aid officers to prepare for the many examinations in that subject that are now required for a successful career in the profession of arms."—ARMY AND NAVY CHRONICLE.

V. THE WATERLOO CAMPAIGN.

By Col. S. C. PRATT, late R.A., Author of *Saarbrück to Paris*, etc.

"The series is a most important and valuable contribution to our military literature. *The Waterloo Campaign* deals with a subject of perennial interest, and deals with it worthily. To the elementary student it is a readable and intelligent sketch which, moreover, stimulates his desire to know more of these great events; to the advanced, intimate with its careful marshalling of facts and its critical probings into the inner working of the staffs, it should become an important volume in his Waterloo collection."—BROAD ARROW.

"In compiling this excellent précis of the Waterloo campaign, Colonel Pratt has fully displayed his accustomed skill. The narrative, although necessarily condensed, embraces all the important incidents, and the comments are invariably to the point. In order to assist the careful searcher after knowledge, the author has inserted very frequent references to the various authorities from whose works his facts have been gleaned."—UNITED SERVICE MAGAZINE.

"This book appears most opportunely now that the Waterloo campaign is a subject for promotion examination both at home and in India. Gunners will find that the study of this campaign is greatly brightened by the clear rendering given by an old gunner. It would be ludicrous to say that it is better than any other book on the subject, but any one who has already read Colonel Pratt's Précis of 1870, will know that they are in safe hands when following the narrative of this short and brilliant campaign."—R.A. JOURNAL.

"Colonel Pratt's work is an admirable one for the student of the battle who looks at it from a purely military standpoint. The author eschews sensationalism and imagination run riot, and confines himself to hard, stern facts. *The Waterloo Campaign* will prove useful as a text book in regard to a battle replete with military lessons."—WAR OFFICE TIMES.

"A thorough master of the vast literature of his subject, Colonel Pratt, who is no novice in military writing, commands a clear and vivacious manner. He never palms off guesses as established facts, and his text, which is a capital mixture of narrative and comment, is supported by proper paragraph references and a select list of books."—SPECTATOR.

"It has the merit of telling the story of the wonderful four days' campaign clearly and with sufficient detail, within a moderate compass, and it gives the reader the results of the most recent researches on the subject of British and foreign authorities. Though so many of the conditions of war have changed, the Waterloo campaign is full of important lessons, especially in this point of staff work, the transmission of orders and information and the co-ordination of the several parts of a great movement. It shows how the most brilliant plans may be brought to nothing by an order being badly drawn up or wrongly forwarded."—PALL MALL GAZETTE.

"A most interesting and useful technical study. With the help of seven maps, showing the various movements of the army, the author takes the campaign day by day and traces the movements of each section of the contending forces, Napoleon's, Blücher's, and Wellington's miscellaneous array. The author deals with the problems that present themselves with clearness and ability. It may be well to add that though this essay is primarily intended for fighting men, it will be found intensely interesting by the ordinary civilian."—YORKSHIRE POST.

"Concise accounts of this instructive campaign are not too numerous, and the student of the military history, or the reader who wishes to have the broad outlines of the operations sketched with some fulness but without the elaborate detail of Houssaye's great work, will find Colonel Pratt's book of much service. Colonel Pratt is a thorough master of his subject. His narrative is accurate and clear, and in some of the most confusing phases of the campaign, such as the movements on the day of Quatre Bras, he has worked out the succession of events in an admirable way."—MANCHESTER GUARDIAN.
