PREFACE.

IN ISSUING a new edition of the CATALOGUE OF THE LIBRARY OF THE UNIVERSITY OF VERMONT, it seems proper to offer a few words on some points touching the History and Character of the Library, and the plan on which the Catalogue is arranged.

1. The *original Library*, which had been made up by donations of benevolent individuals and friends of the University, was mostly destroyed by fire when the college edifice was burned in 1824.

2. The *present Library*, therefore, may be regarded as having had its beginning in the year 1836, when the sum of \$10,000 was appropriated by the Corporation for the purchase of a *Library*. The Faculty of the University having been authorised to expend the money for that purpose, proceeded immediately to make up such a list of Books, in the different departments of learning, as, in their opinion, would be the best that could be had for the sum appropriated. PROF. TORREY was the Agent of the Faculty in effecting the purchases, and went to Europe the same year, for this purpose, with power to vary the list at his discretion.

The following Catalogue, although it contains many valuable books obtained by purchases and donations since, is mainly the fruit of those efforts. How far the character of the Library corresponds with what it was intended to be, the Catalogue itself will show. But it may not be improper to say, that in the judgment of many, whose opinions are entitled to weight, a better Library, on the whole, for the purposes of a College, is not to be found in the country, considering the number and cost of the books. And yet there is felt an urgent want of additions to all the departments, and it is earnestly hoped that a collection so well begun, and so good, so far as it goes, will not be suffered to remain much longer without a reasonable degree of growth and enlargement. The whole number of volumes contained in the Library, exclusive of loose Pamphlets, Maps, and Charts, is found by actual counting to amount to 8108.

3. The resources for the increase of the Library are at present confined to the following :

1. The fund of the "WHEELER LIBRARY;" yielding <i>forty-five dollars</i> annually, to be expended in the purchase of books in English Literature and History,	\$45,00
2. The "SMOKE FUND;" yielding <i>thirty dollars</i> annually to be expended in the purchase of Periodicals,	30,00
3. STUDENTS' FEES; expended partly in keeping the books in repair—say,	150,00
4. Books are also received by donations to an annual amount of at least	100,00

4. In the first Catalogue of this Library which was prepared with great pains and published in 1836, the books were arranged and classified *by subjects*; but the impracticability of classifying in this way, without considerable repetition, works which comprise several distinct subjects, has led to a different arrangement in the present edition. The books, as will be seen, are now arranged by the names of the Authors in alphabetical order; and an *Index of Subjects* has been appended, to facilitate its use by the Students, whose wants were chiefly had in view in its preparation.

The haste with which it has been necessary to prepare the edition for the press, has been the occasion of several errors, most of which, it is hoped, will be found corrected in the list of "ERRATA" at the end. That such errors are so few is chiefly due to the care of MR. THOMAS BUCKHAM, under whose critical eye the proof-sheets passed. Our acknowledgements are due also to the PUBLISHER for the handsome manner in which the work has been got up.
