PREFACE

THE object of this book is to enable the owners and the operators of "Case" Threshing Machinery to become familiar with the construction and operation of their engines and machines. The material has been gathered, not only from the author's personal experience, but also from notes taken during visits to the outfits of a large number of the best and most successful threshermen in various localities. The aim has been to avoid theorizing and only such statements are made as have been demonstrated practical, by actual field experience. The fact is appreciated that it is impossible to lay down specific rules for operating threshing machinery, under the ever varying conditions of grain, straw and weather, but it is hoped that the suggestions herein embodied will enable a man of ordinary intelligence to operate his machine successfully, and even to become an expert himself.

It is the intention to continue revising it from time to time, and with this aim in view, suggestions and criticisms will be welcomed from threshermen, wherever located, to whom this little volume is respectfully dedicated.

CONTENTS

For Index, see page 249

PART I. ENGINES

		Page.
Chapter	I Fitting Up and Starting a New Engine.....	9
"	II The Feed Water.....	15
"	III Firing with Various Fuels.....	33
"	IV Lubrication and Adjustment of Bearings.....	43
"	V Handling the Engine.....	59
"	VI The Engine Proper.....	65
"	VII The Valve Gear.....	89
"	VIII The Boiler.....	107
"	IX The Traction Gearing.....	121
"	X Water Tanks.....	129
"	XI Horse Powers.....	131

PART II. SEPARATORS

		Page.
Chapter	I Starting and Setting a Separator.....	147
"	II The Cylinder, Concaves and Beater.....	153
"	III The Straw-rack and Conveyor.....	167
"	IV The Cleaning Apparatus.....	169
"	V Threshing with a Regularly Equipped Separator.....	181
"	VI Threshing with a Specially Equipped Separator.....	191
"	VII The Pulleys and Belting of a Separator.....	207
"	VIII Lubrication and Care of the Separator.....	219
"	IX Feeding the Separator.....	227
"	X The Straw Stackers.....	233
"	XI The Grain Handlers.....	241

LIST OF ILLUSTRATIONS

Fig.		Page
1	Left Side Elevation of Case Traction Engine.....	8
2	Top or Plan View of Case Traction Engine.....	14
3	Lime in Feed Pipe Nipple.....	16
4	Sectional View of Injector.....	22
5	Sectional View of Marsh Pump.....	25
6	Section of Check-Valve.....	28
7	Sectional View of Cast Shell Heater.....	30
8	Sectional View of Steel Shell Heater.....	31
9	Sectional View of Fire Box for Burning Straw.....	36
10	Sectional View of Fire Box for Burning Oil.....	38
11	Sectional View of "Ideal" Cup.....	46
12	Oil Pump Attached.....	47
13	"Swift" Lubricator.....	48
14	The Connecting-Rod.....	51
15	The Cross-Head.....	53
16	Board used in Babbitting Cannon Bearing.....	56
17	Cannon Bearing in Position for Babbitting.....	57
18	Side Elevation of Engine Proper.....	65
19	Sectional View of Simple Cylinder.....	66
20	Governor for Engine.....	72
21	Section of Governor Valve.....	74
22	Engine Belted to Prony Brake.....	79
23	Prony Brake.....	80
24	Sectional View of Woolf Compounded Cylinder.....	84
25	Face of Compounded Valve.....	85
26	Pipe to Steam Plugs, Compounded Valve.....	86
27	Center-Head Packing.....	87
28	The Woolf Reverse Valve Gear.....	90
29	Tram on Disc.....	94
30	Tram on Cross Head.....	95
31	Tram on Valve Stem.....	97
32	Sectional View of Boiler.....	106
33	Interior of Steam Gage.....	108
34	Section of Steam Gage Siphon.....	108
35	Sectional View of Pop Valve.....	109
36	Fusible Plug in Section.....	110
37	Cut Showing Cannon Bearing and Gearing.....	122
38	Friction Clutch of Case Engine.....	123
39	Section of Hub Portion of Clutch.....	124
40	The Differential Gear, Showing Springs.....	127
41	Top View of Power with Sweeps Attached.....	133
42	Sectional View of Iron Frame Horse Power.....	143
43	Sectional View of Case Separator.....	146
44	Cut Showing Space Between Teeth.....	158
45	Right Side of Belt Separator with Feeder and Wind Stacker.....	164
46	Left Side of Separator with Feeder, Weigher and Wind Stacker.....	165
47	Right Side of Geared Separator with Common Stacker.....	166
48	Shoe, Showing Position of Sieve Rods.....	172
49	Lip Sieves (reduced).....	174
50	Sieves and Screens (full size).....	175
51	Spacing of Holes in Leather Belts.....	214
52	Belt Lacing with Ends Turned Up.....	214
53	Lacing for Four Inch Leather Bolt.....	215
54	Location of Holes for Lacing Canvas Belt.....	217
55	Stitched Canvas Belt Lacing.....	218
56	Sectional View of Case Feeder.....	229
57	Sectional View of Wind Stacker.....	235
58	Telescoping Device for Straw-Chute.....	234
59	Head of Case Weigher.....	243
