THIS work has been prepared to meet the wants of students who have not time to complete the study of "Harper's School History of the United States." While it is little more than half the size of that book, care has been taken not to omit any points of importance, nor to sacrifice clearness to brevity.

In general arrangement it is much the same as the larger work. Each paragraph is introduced by prominent type, which will aid in impressing important events on the memory.

With these few words, the "Smaller History of the United States" is now presented to the notice of teachers, and other friends of education.

NEW YORK, *June*, 1872.
