1886.

THE remarkable success of a previous volume, "PLEASE TELL ME A TALE," convinced the Editor that his first effort to provide a series of bright and attractive stories really suitable for young Children had not been in vain; while many juvenile readers and their friends have not since failed to remind him that the youthful appetite is not easily satisfied, and that the further plea which forms the title of this new volume is very frequently advanced. To meet this demand he has obtained from many kind writers an entirely new series of specially-written tales, and if it only obtains anything like the same number of approving little readers as did its predecessor, he will have the satisfaction of knowing that his second endeavour has also been crowned with complete success.
