PREFACE TO SECOND EDITION

THE author is much gratified with the interest manifested in *Productive Bee-Keeping*, which makes a new edition desirable. A number of changes have been incorporated in the text, mostly for the purpose of presenting the subjects a little more fully. It has not been found necessary to rewrite any considerable portion of the book in order to keep it fully up to date.

FRANK C. PELLETT.

ATLANTIC, IOWA, July 1, 1918.
