## A HAND-BOOK

OF

METHODS FOR STUDYING THE PHYSIOLOGICAL  
ACTIONS OF DRUGS.

BY

L. HERMANN,

PROFESSOR OF PHYSIOLOGY IN THE UNIVERSITY OF ZURICH.

TRANSLATED, WITH THE AUTHOR'S PERMISSION, WITH NOTES  
AND ADDITIONS,

BY

ROBERT MEADE SMITH, M.D.,

DEMONSTRATOR OF PHYSIOLOGY IN THE UNIVERSITY OF PENNSYLVANIA.

WITH THIRTY-TWO ILLUSTRATIONS ON WOOD.

QP905  
H5513  
1883

PHILADELPHIA:  
HENRY C. LEA'S SON & CO.  
1883.

## TRANSLATOR'S PREFACE.

---

THE translation of Hermann's Manual of Pharmacology was undertaken to furnish the student with a work that would assist him in his studies of the physiological action of drugs, enabling him to make the experiments himself that would otherwise require the assistance of the instructor.

The translator has attempted to elucidate the text with a careful selection of illustrations; and he trusts that his voluminous additions, which constitute nearly one-half of the entire volume, will render the work a more perfect guide to the student.

FEBRUARY 1, 1883.

# TABLE OF CONTENTS.

## INTRODUCTION.

	PAGE
Definition of a Poison—Scope of Pharmacology—Methods of Study—Methods of Pharmacological Investigation . . .	13

## PART I.

### STUDY OF THE ACTION OF A POISON ON ISOLATED ORGANS.

Section I.—ACTION ON THE BLOOD . . . . .	20
1. Alterations in the Consistence of the Blood . . . . .	23
2. Alterations in the Reaction of the Blood . . . . .	23
3. Alterations in the Red Blood-Corpuscles . . . . .	25
4. Alterations in the White Corpuscles . . . . .	28
5. Alterations in the Coagulability of the Blood . . . . .	29
6. Alterations in the Coloring Matter of the Blood . . . . .	29
7. Alterations in the Gases of the Blood and in the Power of Absorbing Gases . . . . .	30
8. Alterations in the Ozone and Ozonizing Power of the Blood . . . . .	30
Section II.—ACTION ON THE MUSCLES . . . . .	31
1. Examination of Indirect Muscular Irritability . . . . .	37
2. Examination of Direct Muscular Irritability . . . . .	46
3. Examination of the Physiological Conductivity of Muscle . . . . .	47
4. Measurement of Muscular Energy . . . . .	48
5. Examination of Alterations in the Chemical Properties of Muscle . . . . .	48
Section III.—ACTION ON THE NERVES . . . . .	49
Section IV.—ACTION ON THE HEART . . . . .	52

## PART II.

## INVESTIGATION OF THE GENERAL ACTION OF POISONS.

	PAGE
I.—SELECTION OF ANIMALS . . . . .	55
Section I.—MODES OF SECURING ANIMALS . . . . .	60
II.—ADMINISTRATION OF POISONS . . . . .	63
Section I.—INJECTION INTO THE BLOODVESSELS . . . . .	65
Section II.—SUBCUTANEOUS INJECTIONS AND INJECTIONS INTO SEROUS SACS, LYMPH SACS OF THE FROG, ETC. . . . .	70
Section III.—INSERTION OF POISONS INTO THE MUCOUS CAVITIES OF THE BODY . . . . .	70
Section IV.—ADMINISTRATION OF GASES AND VAPORS THROUGH THE LUNGS . . . . .	73
III.—INVESTIGATION OF THE PATHS OF ELIMINATION AND CHANGES OF POISONS IN THE BODY . . . . .	77
Section I.—PASSAGE OF DRUGS THROUGH THE SYSTEM WITHOUT CHANGE . . . . .	78
Section II.—DEPOSIT OF DRUGS IN THE SYSTEM THROUGH ASSIMILATION . . . . .	80
Section III.—CHEMICAL ALTERATION OF POISONS IN THE ECONOMY . . . . .	80
<i>a.</i> Displacement of Acids or Bases in Salts . . . . .	81
<i>b.</i> Formation of Chemical Compounds with Ingredients of the Tissues and Excretion under Modified Forms . . . . .	82
<i>c.</i> Decomposition of Poisons in the System and Excretion of the Decomposition Products . . . . .	82
<i>d.</i> Decomposition of Poisonous Substances and Excretion of their Products . . . . .	84
IV.—EXPLANATION OF THE SYMPTOMS PRODUCED BY POISONS . . . . .	85
Section I.—ACTION ON THE CIRCULATORY APPARATUS . . . . .	88
Mode of Conducting an Experiment on Blood-Pressure . . . . .	92

TABLE OF CONTENTS.

ix

	PAGE
Causes of Changes in the Circulatory Mechanism . . . . .	105
The Cardiac Ganglia . . . . .	106
The Cardiac Inhibitory Nerves . . . . .	107
The Accelerator Nerves . . . . .	108
The Vaso-Motor System . . . . .	110
Indirect Results of Circulatory Disturbances . . . . .	128
<b>Section II.—ACTION ON THE RESPIRATORY APPARATUS</b> . . . . .	130
<i>a.</i> Dyspnœa . . . . .	131
<i>b.</i> Cessation of Respiratory Movements . . . . .	134
1. Reduction of the Respiratory Stimulus through Saturation of the Blood with Oxygen, and Diminution of its Carbon Di-oxide . . . . .	134
2. Reduction in Irritability of the Respiratory Centre . . . . .	134
3. Paralysis of the Respiratory Muscles . . . . .	135
<i>c.</i> Alterations in the Frequency of the Respiratory Movements . . . . .	135
<i>d.</i> Appearances in the Larynx . . . . .	136
<b>Section III.—ACTION ON THE DIGESTIVE APPARATUS</b> . . . . .	136
<i>a.</i> Alterations in the Movements of the Digestive Organs . . . . .	137
1. Movements of the Jaws . . . . .	137
2. Deglutition . . . . .	137
3. Movements of the Stomach . . . . .	137
4. Movements of the Intestines . . . . .	139
<i>b.</i> Alterations in the Sensibility of, and Production of Abnormal Sensations in the Alimentary Canal . . . . .	140
<i>c.</i> Alterations in the Digestive Secretions . . . . .	141
<i>d.</i> Alteration in the Digestive Processes . . . . .	144
<b>Section IV.—ACTION ON GLANDULAR ORGANS</b> . . . . .	144
<i>a.</i> Secretory Glands . . . . .	144
1. Action on the Salivary Secretion . . . . .	145
2. Action on the Biliary Secretion . . . . .	150
3. Action on the Kidneys . . . . .	152
4. Action on the Sweat Glands . . . . .	157
5. Lachrymal Glands . . . . .	158
6. Lacteal Glands . . . . .	158
<i>b.</i> Non-Secretory Glands . . . . .	158
