PREFACE TO THE FOURTH AND
FIFTH EDITIONS.

—♦—

THE Fourth Edition, which appeared last year, contained ten new Indications, taken from the practice of Dr. Köck at Munich, partly from my own. Those furnished by my colleague concern the Retina-exudation, Empyema, and Hypopion.

The present Edition contains also some additions.

DR. SCHÜSSLER.

PREFACE TO THE THIRD EDITION.

I PRESENT my little work in the Third Edition to the public, after having added several Indications, and having completely remodelled it.

The First and the Second Editions were so quickly out of print that I may hope the present one will meet the kindly reception of its predecessors.

As every innovation gains by opposition, it is a source of satisfaction to me that some opponents have appeared against my Therapeutics. The views of these critics the reader will find in the part entitled "Refutation of some Objections."

OLDENBURG, *May* 1876.

TRANSLATOR'S PREFACE.

WITH Dr. Schüssler's permission I have undertaken the translation of his system of treating disease by means of triturated Tissue Salts,—Constitutional Tonics, which tend to restore the lost or disturbed proper balance of Cell Salts. Its publication in English will, I hope, make it known to many to whom otherwise it might be unavailable.

Modern Textural Pathology, Quantitative Analysis, Minute Anatomy, Analytical Chemistry, and such kindred Sciences, have furnished a field of research to this German physician. Professional skill and science combined, have thus led to the elucidation of this new system of Therapeutics.

A General and a Therapeutical Index have been arranged and added by me to the original; the latter to give a resumé of diseases which are histo-pathologically alike, and require such remedy as is mentioned at the head of each group.
