PREFACE.

NEXT to right and noble living, which is the highest thing to which man may aspire, may be placed the right thinking which is essential to such living. Logic, as the Science of the Laws of Thought, is very widely studied, in the higher schools, as an aid to the pupil in thinking; yet it is the settled conviction of many of the best educators that this Science, as it is ordinarily presented, does very little toward training to think or preparing for thinking. In short, there seems to be a growing feeling that it rather serves, in case of the average mind, to cram the memory and paralyze the thinking powers. The author of this volume shares to some extent in this conviction and feeling; hence the present attempt to construct a Practical Logic, by the use of which intelligent teachers may train inquiring minds to correct thinking.

The only way to learn to think is by thinking; the only way of training a pupil to think is by making him practise thinking. Assuming the correctness of this principle, Logical Praxis is made the prominent and essential feature of the work. Each principle of thought is turned into a Rule,

and then made part of the mental property and power of the student by abundant exercises.

The best training in thinking must be intelligent and systematic. Accordingly the foundation for this is laid by a comprehensive and systematic presentation of the forms and laws of thinking. The processes of formation and unfolding, of involution and evolution, are presented in succession. Beginning with the simplest process of observation, the praxis is carried, by successive stages, up to the highest and most complex processes of constructive thinking, and the mind capable of such work trained intelligently and systematically to clear, distinct, connected, continuous, and constructive thought.

To the various writers on the subject of Logic, the author would acknowledge his indebtedness, and especially to Ueberweg, Hamilton, Thomson, Whately, Mill, Jevons, Atwater, McCosh, Davis, Bowen, and Day.

To teachers he would suggest that Part I. may be used in the earlier stages of training, and the remaining parts reserved for a later stage. In the use of the text-book the teacher will ordinarily do his best work for his pupil by drawing largely on his own resources for material for praxis. Each locality, school-room, branch of study, and experience will suggest innumerable topics of fresh and living interest, which may be profitably substituted for those given in the text-book.

D. S. GREGORY.

LAKE FOREST, ILL., August, 1881. }

INTRODUCTION.

	PAGE
I.—NATURE OF LOGIC	9
TOPIC 1.—OBJECT-MATTER OF LOGIC	10
TOPIC 2.—PRACTICAL AIM OF LOGIC	13
TOPIC 3.—PRINCIPLES OR LAWS OF THOUGHT	17
II.—DIVISIONS OF LOGIC	22

PART I.

The Logic of Conception or the Term.

CHAPTER I.

<i>THE FORMATION OF CONCEPTIONS</i>	25
SECTION I.—OBSERVATION	26
TOPIC 1.—THE PREDICABLES OR THINGS KNOWABLE	27
TOPIC 2.—OBSERVATION OF THINGS PREDICABLE	30
SECTION II.—CONCEPTION PROPER	34
TOPIC 1.—PROCESS OF CONCEPT-FORMING	34
TOPIC 2.—PRODUCT OF CONCEPT-FORMING	38
SECTION III.—CLASSIFICATION	41
TOPIC 1.—PROCESS OF CLASSIFICATION	41
TOPIC 2.—RESULTS OF CLASSIFICATION	44
SECTION IV.—DENOMINATION OR NAMING	49
TOPIC 1.—PROCESS OF NAMING	49
TOPIC 2.—PRODUCTS OF NAMING	52

CHAPTER II.

	PAGE
<i>THE UNFOLDING OF CONCEPTIONS.</i>	56
SECTION I.—LOGICAL PARTITION	57
TOPIC 1.—FORMS OF LOGICAL PARTITION	59
TOPIC 2.—RULES OF LOGICAL PARTITION	60
SECTION II.—LOGICAL DIVISION	64
TOPIC 1.—FORMS OF LOGICAL DIVISION	65
TOPIC 2.—RULES OF LOGICAL DIVISION	68
SECTION III.—LOGICAL DEFINITION.	75
TOPIC 1.—KINDS OF DEFINITION	75
TOPIC 2.—RULES OF LOGICAL DEFINITION	81

PART II.

The Logic of Judgment or the Proposition.

CHAPTER I.

<i>THE FORMATION OF JUDGMENTS OR PROPOSITIONS</i>	93
SECTION I.—PROCESS OF JUDGMENT-FORMING	93
TOPIC 1.—THE ELEMENTS OF JUDGMENT	93
TOPIC 2.—VERIFICATION OR PROOF OF JUDGMENTS	98
SECTION II.—PRODUCTS OF JUDGMENT	110
TOPIC 1.—QUALITY OF JUDGMENTS	111
TOPIC 2.—QUANTITY OF JUDGMENTS	112
TOPIC 3.—RELATION OF JUDGMENTS	116
TOPIC 4.—GRAMMATICAL COMBINATION OF JUDGMENTS	118

CHAPTER II.

<i>THE UNFOLDING OF JUDGMENTS.</i>	121
SECTION I.—DEVELOPMENT OF CONTAINED JUDGMENTS	121
SECTION II.—DEVELOPMENT OF IMPLIED JUDGMENTS	123
TOPIC 1.—SIMPLER FORMS OF IMPLICATION	123
TOPIC 2.—OBSERSION	123

CONTENTS.

vii.

	PAGE
SECTION III.—DEVELOPMENT OF INFERRED JUDGMENTS.	125
TOPIC 1.—INFERRED JUDGMENTS BY ADDITIONS	126
TOPIC 2.—INFERRED JUDGMENTS BY DISJUNCTION	126
TOPIC 3.—INFERRED JUDGMENTS BY CONVERSION	126
TOPIC 4.—INFERRED JUDGMENTS BY OPPOSITION	128

PART III.

The Logic of Reasoning or the Syllogism.

CHAPTER I.

THE FORMATION OF REASONING OR MEDIATE INFERENCES 135

SECTION I.—PROCESS OF REASONING IN GENERAL	135
TOPIC 1.—FORMS OF REASONING	135
TOPIC 2.—ELEMENTS OF REASONING	137
TOPIC 3.—FINDING AND VERIFYING ARGUMENTS	139
SECTION II.—DEDUCTIVE REASONING	139
TOPIC 1.—PROCESS OF VERIFYING THE ARGUMENT IN DEDUCTION	139
TOPIC 2.—PRODUCTS OF DEDUCTIVE REASONING	141
SECTION III.—INDUCTIVE REASONING	147
TOPIC 1.—VERIFYING CAUSE IN INDUCTION	147
TOPIC 2.—PRODUCTS OF INDUCTIVE REASONING	157

CHAPTER II.

THE UNFOLDING OF REASONING OR THE SYLLOGISM 162

SECTION I.—THE CATEGORICAL SYLLOGISM UNFOLDED	162
TOPIC 1.—POSSIBLE FORMS OR FIGURE AND MOOD	162
TOPIC 2.—TESTING OF VALID FORMS	164
TOPIC 3.—COMPLEX AND ABNORMAL FORMS	179
SECTION II.—THE HYPOTHETICAL SYLLOGISM UNFOLDED	185
TOPIC 1.—CONDITIONAL OR CONJUNCTIVE SYLLOGISM	185

	PAGE
TOPIC 2.—DISJUNCTIVE SYLLOGISM	188
TOPIC 3.—DILEMMATIC SYLLOGISM	189
SECTION III.—CONSPECTUS OF FALLACIES	191
TOPIC 1.—FALLACIES IN INDUCTION	191
TOPIC 2.—FALLACIES IN DEDUCTION	192

PART IV.

The Logic of Construction or the System.

CHAPTER I.

THE FORMATION OF CONSTRUCTION OR SYSTEM

SECTION I.—SCIENTIFIC CONSTRUCTION	200
TOPIC 1.—PROCESS OF FORMING AND VERIFYING SCIENTIFIC SYSTEM	200
TOPIC 2.—PRODUCTS OF SCIENTIFIC CONSTRUCTION	202
SECTION II.—PRACTICAL CONSTRUCTION	206
TOPIC 1.—PROCESS OF FORMING AND VERIFYING PRACTICAL SYSTEM	206
TOPIC 2.—PRODUCTS OF PRACTICAL CONSTRUCTION	207

CHAPTER II.

THE UNFOLDING AND TESTING OF SYSTEMS. 207

SECTION I.—ASCERTAINING THE ELEMENTS.	208
TOPIC 1.—THE WHOLE AND ITS PRINCIPLE	208
TOPIC 2.—THE ARTICULATION OR RELATION OF THE PARTS	209
TOPIC 3.—THE RELATION TO THE OBJECTIVE REALITY	209
SECTION II.—TESTING OF SYSTEMS	210
TOPIC 1.—DIRECTIONS FOR TESTING	210
TOPIC 2.—EXAMPLES ILLUSTRATIVE	211

INDEX	213
