ALBERT W. PAINÉ,  
BANGOR, ME.

---

BANGOR, MAINE:  
PRINTED BY O. F. KNOWLES & COMPANY.  
1881.

Entered according to Act of Congress, in the year 1881, by  
ALBERT W. PAINE,  
In the Office of the Librarian of Congress, at Washington.

To  
THE VERY NUMEROUS INDIVIDUALS, MALE AND FEMALE,  
ON BOTH SIDES OF THE ATLANTIC, WHO HAVE  
CONTRIBUTED SO MANY OF THE STATISTICS  
COMPILED IN THIS FAMILY HISTORY,  
THIS WORK IS RESPECTFULLY  
DEDICATED, WITH THANKS,  
BY THE AUTHOR.

## P R E F A C E.

THE present work, now submitted to the public eye, was originally undertaken and prosecuted by the writer, in moments of leisure and as a matter of diversion for his own and his family's use alone. Subsequent conference with the Editor of "*The Paine Family Records*" led him to make his discoveries more public and general, through the pages of that valuable periodical. The success which has attended his investigations and the gratifying character of the results, have induced him to give a more specific form to his work, by embodying the facts respecting the lineage, gained at the expense of so much time and labor, in a separate volume, as more likely to perpetuate the history and make it acceptable to all such as are interested in the family in question.

The different families of "PAINE" are very numerous, having no connection whatever with each other, as will be seen from a perusal of the book. Of all these, one alone is selected for the subject of this publication. That one is the family to which the writer belongs, and to which he has given the name of the "Ipswich Branch," from the fact that it was at Ipswich, Mass., the family made their first permanent settlement in America.

BANGOR, ME., May 1, 1881.

# PART I.

## ANTE-EMIGRATION HISTORY.

### CHAPTER I.

#### *Introduction.*

HUME, in his "History of England," commences his work by an allusion to "the curiosity entertained by all civilized nations of enquiring into the exploits and adventures of their ancestors," a sentiment universally felt and recognized. Such being the case, how much more curiosity and interest must every individual feel to enquire into the history of his own lineage, whose blood he inherits, and whose character has, to a greater or less extent, determined his own. Few apothegms have more of truth and beauty in them than that which lies at the foundation of all genealogical enquiry, that "*The glory of children are their parents.*" And no teaching is of more importance as bearing upon that almost divine command of "*know thyself,*" than this very one of family history.

The doctrine of heredity, as now developed and confirmed, when faithfully studied and applied to any individual person, can be most implicitly relied upon to give his true character in all its natural and fundamental characteristics and propensities. "*Like father, like son.*" Hence the importance of the subject.

True and perfect genealogical research, in its investigation backwards to the origin of any particular family, does not cease with a knowledge of the individual ances-

tors of the line, but where that ends, a like interesting and important work is found in tracing the history of the race to which they belonged and with which they acted. The clew is thus followed which leads to the determination of all that is most interesting and important in one's full history and character.

The different families of "Paine," as existing in various parts of the country, being mainly, if not wholly, of Norman extraction and descent, as will be hereafter shown, it becomes a very important as well as interesting study to trace the history of that people, so far as its genealogical character is involved, back to its origin and thence down to the time whence distinctive lines of family lineage can be established. To satisfy this curiosity the following brief outline is produced as gleaned from voluminous pages of history and authority.
