PREFACE.

IN compiling this little Manual, I must express my indebtedness to my friends, Mr. Baker Hudson, Mr. Brockton Tomlin, B.A., Miss F. M. Hele, Mr. W. Collinge, Mr. W. Nelson, and Mr. J. W. Taylor, the Editor of "The Journal of Conchology," for supplying me with much valuable information and help. To the works and papers of Gwyn Jeffreys, Alfred Moquin-Tandon, Bandon, Carl Agardh Westerlund, O. Boettger, Colbeau, Fischer, Ralph Tate, Maculister, Huxley, Gegenbaur, Balfour, Rymer Jones, Milnes Marshall, Ashford, Ralph Tate, Woodward, E. Von Martens, Rimmer, Roebuck, Nelson, Siuroth, Taylor, Adams, Emil Adolf Rossmassler, Lessona and Pollonera, Gray, Turton, Catlow, Loewd, Picard, Pascal, Dumont, Mortillet, and Cockerell, I must also express my obligations.

The varieties described include those which have been verified by the Council of the Conchological Society or by myself; and any deviation from the typical form found by the collector not mentioned in this volume should be sent to the Referee Council of the Conchological Society, Leeds, for verification.
