## P R E F A C E.

---

**T**HIE two lectures which are here reprinted from the *Lancet*, with but few alterations and additions, were delivered during the spring of the present year at the Royal College of Physicians. It is hoped that by the republication of these lectures in a separate form, the object with which they were originally delivered may be in some degree promoted.

11, SAVILE ROW,

*November, 1864.*
